

EMPLOYEE UPDATE - 5/15/2020 - ALL SITES

As dealers continue to reopen across the country, orders are flowing in and our backlog is growing. This is a very encouraging sign that we'll be back to "business as usual" before too long. Along with this influx in dealer activity comes an increase in production demand. To provide our dealers with the products and services that they need right now, we will be adding additional manufacturing hours at our active plants and reopening capacity in our South Dakota facility.

For the week of 5/18 - 5/24, standard schedules are listed below. If your supervisor or manager has discussed additional hours outside of the following plan, please be aware that you are still required to work that time.

MAINE

Monday/Wednesday - 7AM to 1PM - 1st Shift Mission (Weld and Finish), 1st Shift Frontier (Weld and Finish)

Tuesday/Thursday - 7AM to 1PM - 1st Shift EZ-Hauler (Weld and Finish), 1st Shift Flats (Weld and Finish)

Friday/Saturday - 7AM to 1PM - 3rd Shift Mission (Weld and Finish), 3rd Shift EZ-Hauler (Weld and Finish), 3rd Shift Flats (Weld and Finish)

MONTANA

Monday/Wednesday - 7AM to 1PM - Mission Line (Weld and Finish), Frontier Line (Weld and Finish)

Tuesday/Thursday - 7AM to 1PM - EZ-Hauler Line (Weld and Finish), Flats Line (Weld and Finish)

SOUTH DAKOTA

Tuesday/Thursday - 7AM to 4PM - Flats Line (Weld and Finish)

Please also note that several employees/teams will be called in for project work at the SD plant next week. All employees should be prepared to return to work, on a modified production schedule, on or before 5/26/2020.

While on site, please make sure you are following all safety guidelines to keep yourself and your coworkers safe. Practice safe distancing, whenever possible, and follow all of the recommendations for personal hygiene and work area cleanliness. If we all do our part, we'll be back to "normal" soon.

Thank you all.
