Legacy Landscape Trailer Series

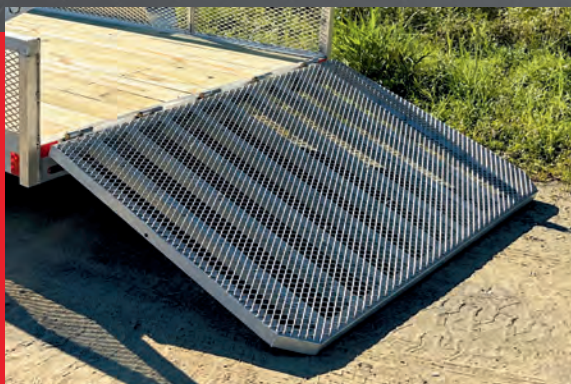

Featuring the new strong structural C-Channel design

Meet the new Legacy Landscape Series aluminum utility trailer shown with the mesh sides upgrade. Featuring ALCOM's structural C-channel design, it's built to resist rot and rust while moving heavy cargo. Lay-flat ramp design with rugged welded aluminum hinges completes the package. This sturdy ramp is designed for dependable loading and unloading of heavy cargo up to 2500 lbs. Optional rail, and tie-down upgrades are available for a completely customized heavy-duty landscape trailer.

Shown with optional Mesh Rail Kit
